Augustine (354-430) had a flair for teaching and meditated deeply on the mysteries of the human heart. This study examines a little-known side of his career: his work as a teacher of candidates for baptism. In the revised edition of this seminal book, both the text and notes have been revised to better reflect the state of contemporary scholarship on Augustine, liturgical studies, and the catechumenate, both ancient and modern. This edition also includes new findings from some of the recently discovered sermons of Augustine and incorporates new perspectives from recent research on early Christian biblical interpretation, debates on the Trinity, the evolution of the liturgy, and much more. This reconstruction of Augustine's catechumenate provides fresh perspectives on the day-to-day life of the early church and on the vibrancy and eloquence of Augustine the preacher and teacher.

hermeneutics. Eugene TeSelle examines the inner conflict that Augustine expresses in his sermons on Romans 7 and 8. Simon Gathercole analyzes the ways that Augustine reads natural law and restored nature in Romans as a result of his conversion. John K. Riches looks at the impact Augustine's readings have had on Pauline critical studies. Using Galatians and Romans, Peter J. Gorday explores the patristic debate about reading Romans. Daniel Patte offers Augustine as a model for the practice of "scriptural criticism" of the New Testament. Finally, Krister Stendhal provides a response to the essays."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

This outline of the career of St. Augustine (354-430) discusses three major fields of his writings: against the Manichees, the Donatists and the British theologian Pelagius, who maintained a theology of divine Grace which saw infant baptism as desirable but not essential for salvation. Augustine's attacks on Pelagianism initiated a debate which remains controversial to this day.

**Augustine Today**-William S. Babcock 1993  
"Dialogue" is one of American religion's shopworn terms. Although we hear much talk about dialogue, very little of it actually takes place. Religious discourse - especially about politics and public affairs - is increasingly polarized, involving much contestation but little conversation. If truths are to be tested, however, there is no substitute for dialogue. Arising out of conferences sponsored by the Center on Religion and Society in New York City, the Encounter Series presents a diverse group of people - theologians, ethicists, philosophers, and public-policy experts from across the political and religious spectrum - in dialogue on a variety of controversial issues. Each Encounter Series volume includes not only the essays presented at the conference but also a lively narrative of the subsequent discussion, allowing the reader to experience more fully the actual give-and-take of genuine dialogue.

**Augustine Mystic and Mystagogue**-Frederick Van Fleteren 1994 This volume, entitled "Augustine: Mystic and Mystagogue," studies the origins of Augustine's mystical writings, analyzing texts in which Augustine describes his own anagogic experiences and mysticism in general, and demonstrating the influence of Augustine's mystical analyses on later writers. The book is divided into four parts. In the Introduction, the editors posit critical questions concerning the nature of mysticism and present a monograph from the mid-1930's in English translation, wherein the author critiques many ascensional passages in Augustine. In the section on Augustine as Mystic, eight authors assess Augustine's descriptions of his own ascents-of-mind, and his generalizations upon them. In the section on the influence of Augustine's mysticism, ten authors examine the sway exercised by Augustine over medieval mystical writings. Finally, in the Conclusion, the editors of this volume express their own judgments concerning Augustine as both mystic and
